SWIMEXCELL ESHER SC - KEEPING YOU UP TO DATE WITH ALL THE NEWS

Essay from Georgia

...excitement @ Xcel!!

Boy have I just had the worst swimming session EVER at Excel.

After about half way through our session the insanely loud and annoying fire alarm went off and didn't stop for another half a hour. What the heck is going on, I thought, is that actually a fire alarm or someone screaming? Please just turn it off! We scrambled out of the pool after Penny and the life guards told us to and lucky us, we had to all stand right next to the loudest fire alarm speaker ever. Again, just turn it off!

But they didn't and after a while we realised that this was no joke as there was an fire engine and firemen outside. While we stood around waiting, chatting, goofing off, Penny was not pleased but there was nothing she could do about it. The firemen seemed to be snooping around the huge shed thingy outside and trying to open this locked door.

They managed to open the door and turn the alarms off. We never actually found out where the fire was or even if there was a fire. And then the worst part is that we had to get dressed in front of everyone, boys, girls, men, women, lifeguards, everyone! What a night. I couldn't wait to get home. The whole ride home I could still hear the ringing in my water filled ears.

Birthdays!
